---

### Partnering at the Frontier of Robotics

HUMANOIDZ NYC is building the world's first interactive humanoid robotics retail center and STEM inspiration hub — a landmark institution at the intersection of technology, education, and commerce. We are inviting corporate sponsors and institutional partners to join us in shaping the future of robotics integration, workforce development, and public education.

Our two-location model creates a unique, end-to-end partnership ecosystem:

**NYC Flagship — Manhattan** The commercial and cultural anchor of the HUMANOIDZ brand. A premier retail showroom, live robot demonstration space, enterprise suite facility, and public STEM inspiration lab. This is where the world meets the future of robotics — in person, in real time. STEM programming is delivered here through the HumanoidzNYC Foundation to schools and communities across New York City and New Jersey.

**NJ Operations Hub — New Jersey** The technical backbone of the operation. A Robotics Maintenance & Repair Bay, Testing & Calibration Lab, warehouse and logistics operations, and the future home of the Humanoid Technician Academy — a career training program currently in development in collaboration with regional workforce partners and the U.S. Office of Apprenticeship.

*Technical Career Pathways (Program Under Development): HUMANOIDZ NYC is currently developing a formalized, multi-state training pipeline in collaboration with regional workforce partners and the U.S. Office of Apprenticeship. Phase 1 (NYC): Community STEM engagement and pre-apprenticeship readiness through the HumanoidzNYC Foundation. Phase 2 (NJ): Apprenticeship training and on-the-job learning, including Related Technical Instruction (RTI), at our NJ Technical Hub.*

*We are currently in the program development and registration phase. This program has not yet received formal registration or approval.*

---

## **Corporate Sponsorship Opportunities**

For forward-thinking brands, HUMANOIDZ NYC offers unparalleled visibility and engagement at the cutting edge of technology. Corporate sponsorships provide unique opportunities to align your brand with the future of robotics and reach a highly engaged, innovation-driven audience.

**Enterprise Suite Bookings** Secure priority access to our dedicated enterprise suites at the NYC Flagship. These private, immersive environments are designed for corporate retreats, team-building exercises, executive demonstrations, and client entertainment — all featuring live, interactive humanoid robot experiences. Priority booking rights are available to corporate partners at the time of signing.

**Event Sponsorships** Elevate your brand by sponsoring high-profile events at HUMANOIDZ NYC. Opportunities include the 2026 VIP Opening Gala in Manhattan, robotics hackathons and competitions that attract top technical talent, and industry symposiums focused on AI, automation, and the future of work. Sponsorship packages include premium brand placement, speaking opportunities, and dedicated audience engagement.

**Brand Visibility and Integration** Integrate your brand into the HUMANOIDZ NYC experience through naming rights for specific zones, labs, or interactive exhibits within the NYC Flagship; prominent logo placement on digital displays, the Founder Wall, and all marketing materials; and custom robotic activations designed in collaboration with our team to highlight your organization's commitment to innovation.

*Note: Corporate sponsors contributing through HUMANOIDZ NYC LLC may deduct contributions as a business marketing or sponsorship expense, deductible in the year the contribution is made.*

---

## **Institutional Partnership Opportunities**

HUMANOIDZ NYC seeks deep, mission-aligned collaborations with universities, hospitals, government agencies, and media organizations.

**Educational Institutions — Universities and Schools** Partner with the HumanoidzNYC Foundation to sponsor or facilitate immersive STEM field trips and workshops at our NYC Flagship. Collaborate on curriculum development for the Humanoid Technician Academy at our NJ Operations Hub, helping to shape the next generation of robotics professionals. Utilize our facilities and robotic platforms for academic research in human-robot interaction, artificial intelligence, and mechanical engineering.

**Healthcare and Rehabilitation — Hospitals and Clinics** Explore the application of humanoid robots in physical therapy, patient care, and rehabilitation settings. Partner with us to design and test robotic solutions that assist healthcare professionals and improve patient outcomes, with access to our full suite of humanoid platforms and our technical team.

**Government and Workforce Development** Engage with us as we develop the Humanoid Technician Academy in collaboration with the U.S. Office of Apprenticeship, creating career pathways and technical credentials that address the growing demand for robotics maintenance professionals. We welcome government partners at the city, state, and federal level who share our commitment to inclusive workforce development.

**Media and Content Partnerships** Secure exclusive behind-the-scenes access for documentaries, news segments, and feature articles. Co-produce educational series, podcasts, or digital content that explores the impact of robotics on daily life, work, and society. HUMANOIDZ NYC is a visually compelling, story-rich environment purpose-built for compelling media.
