

HUMANOIDZ NYC LLC

MANHATTAN'S FIRST HUMANOID ROBOT EXPERIENCE CENTER

VENDOR & PARTNERSHIP PROSPECTUS — 2026

THE OPPORTUNITY

HUMANOIDZ NYC is a first-of-its-kind destination rising in the heart of Manhattan — a multi-floor, 40,000 sq ft flagship where the world's most advanced humanoid robots meet the public, the enterprise, and the city itself.

WHY NOW / WHY NYC

We are at the inflection point of the global robotics boom. Until now, advanced robotics have been confined to private R&D labs, trade shows, and YouTube videos. HUMANOIDZ NYC changes that by placing this technology in the center of the world's highest-traffic retail and media market. A permanent Manhattan presence provides vendors with unmatched daily exposure to international tourists, Fortune 500 decision-makers, and top-tier technology journalists.

We are currently selecting best-in-class technology vendors, hardware suppliers, and service providers to integrate into our permanent live environment. Partnering with HUMANOIDZ NYC offers unparalleled visibility, allowing your products to be showcased in daily operation to millions of annual visitors, enterprise buyers, and global media.

We operate on a unique model: **Vendors provide the hardware, we provide the ultimate global showroom.** Through our retail channels, enterprise suite bookings, and STEM Foundation initiatives, we generate revenue while serving as your most powerful real-world proof of concept.

PARTNERSHIP TIERS & THE CORE EXCHANGE

We offer three tiers of partnership to accommodate different levels of vendor commitment and capability.

TIER	VENDOR COMMITMENT	HUMANOIDZ NYC PROVIDES
------	-------------------	------------------------

Founding Partner	Outright equipment donation, guaranteed maintenance SLA, and STEM curriculum support.	Category Exclusivity. Premium floor placement, Grand Opening press kit inclusion, revenue share on direct sales, and full data & analytics sharing.
Premier Partner	Equipment on long-term consignment (12-month minimum) and STEM curriculum support.	Standard floor placement, "Official Hardware Provider" branding, revenue share on sales, and access to enterprise buyer introductions.
Associate Partner	Standard wholesale agreement or short-term rotating display.	Rotating floor placement, standard retail margin, and inclusion in general facility marketing.

Tax Advantages & STEM Mission: Equipment donated directly to the HUMANOIDZ Foundation (our 501(c)(3) arm) strengthens our mission to educate the next generation of engineers and developers. Because these units are actively utilized in our public-facing STEM programs, donations may qualify for significant charitable tax deductions — providing a powerful financial incentive for our vendor partners.

FACILITY SPECIFICATIONS & DEPLOYMENT ZONES

Our Manhattan flagship is purpose-built to handle the unique demands of advanced robotics.

INFRASTRUCTURE

SPECIFICATION	DETAIL
Floor Loading	High-capacity flooring suitable for heavy robotic units. Structural load ratings available upon request during Phase 3.
Connectivity	Dedicated WiFi-6E and private 5G network for low-latency robot control and real-time telemetry.
Power	Standardized 220V/110V charging bays throughout all zones, with provisions for swappable battery storage systems.
Edge Compute	On-site edge compute infrastructure available for units requiring local processing. External server co-location arrangements available for specialized requirements.

DEPLOYMENT ZONES

Zone A — Hands-On **PUBLIC INTERACTION**

Interaction-safe companion robots approved for direct visitor engagement. Requires ISO 13482 certification or equivalent. Ideal for social, educational, and retail demonstration robots.

Zone B — The Arena **PERFORMANCE DEMO**

High-performance humanoid demonstrations in a fenced/protected environment. Designed for industrial-grade or high-mobility units. Visitors observe from a designated safety perimeter.

Zone C — The Lab **TECHNICAL SHOWCASE**

Maintenance, repair, and engineering showcase behind transparent glass viewing panels. Ideal for vendors who want to demonstrate technical depth and after-sales support capabilities.

CO-MARKETING & MEDIA RIGHTS

HUMANOIDZ NYC's Manhattan location is one of the most valuable marketing assets in the global robotics industry. We are explicit about the value we offer our partners:

- Partners receive "**Official Hardware Provider**" status with full branding rights across all HUMANOIDZ NYC marketing channels.
- Founding Partners are included in our **2026 Grand Opening press kit**, distributed to major technology, business, and lifestyle media outlets globally.
- Partners receive the right to use the Manhattan Flagship as a "**Real-World Proof of Concept**" in their own sales materials, investor decks, and marketing campaigns.
- HUMANOIDZ NYC will produce co-branded social media content, video documentation, and press releases featuring partner hardware in live operation.
- All visitor interaction data (dwell time, engagement frequency, demographic patterns) will be shared with Founding Partners under a mutual NDA.

The Value Proposition: A permanent, staffed, high-traffic Manhattan showroom — with daily live demos to millions of visitors — is worth millions in traditional retail or trade show costs. Partners who commit early receive this exposure as part of their partnership terms.

SAFETY & COMPLIANCE REQUIREMENTS

- **ISO 13482** (Safety requirements for personal care robots) or equivalent industrial safety standard for public interaction environments.
- Active LIDAR, proximity stop-sensors, or equivalent pedestrian safety systems for all Zone A and Zone B units.
- Vendors must carry their own **product liability insurance** and name HUMANOIDZ NYC LLC as an additional insured party.
- A maximum **48-hour on-site response** and **24-hour remote diagnostic** SLA must be guaranteed for all deployed units.
- Vendors must provide certified technical training for HUMANOIDZ NYC staff covering operation, emergency stop procedures, and basic maintenance.

THE VENDOR EVALUATION PROCESS

PHASE	TIMELINE	ACTION REQUIRED
-------	----------	-----------------

Phase 1: Initial Inquiry	Immediate	Submit the Vendor Questionnaire via email.
Phase 2: Discovery & LOI	1–2 Weeks	Technical review call and signing of a preliminary Letter of Intent (LOI).*
Phase 3: Site Integration	3–4 Weeks	Floor space allocation, network mapping, and safety audit.
Phase 4: Agreement & SLA	1–2 Months	Finalization of consignment/donation terms, revenue share, and maintenance SLAs.

**All LOIs include a discovery period of up to 60 days, at the discretion of HUMANOIDZ NYC LLC. HUMANOIDZ NYC LLC reserves the right to cancel the LOI and terminate the discovery process at any time, at its sole discretion.*

VENDOR QUESTIONNAIRE

To begin the evaluation process, please reply at vendors@humanoidznyc.com with brief answers to the following:

1. **Deployment History:** Has this unit operated in a public-facing or retail environment before?
2. **Uptime/Reliability:** What is the mean time between maintenance cycles for continuous operation?
3. **Safety Features:** Does the unit have active LIDAR, proximity stop-sensors, or ISO 13482 certification?
4. **Support Infrastructure:** Do you have a local NYC technician, or do you rely on remote diagnostic capabilities?
5. **Lead Time:** What is the current manufacturing lead time for 2–5 units?
6. **Partnership Tier:** Are you interested in exploring a Founding Partner (Donation/Exclusivity) or Premier Partner (Consignment) relationship?
